Introducing STREAMZ® – The World’s First Smart Headphones with a WiFi 36GB HD Player

Streams Online Music Apps - Pandora®, Spotify® and Others - WITHOUT a Smartphone

SALT LAKE CITY, January 4, 2016: STREAMZ® --The world’s first Wifi smart streaming headphones that streams online music without a smartphone is debuting at CES being held in Las Vegas Jan. 6-9.

STREAMZ includes WiFi, a 1.6 GHz Quad-core Android® processor, HD music player, voice control and a color display. STREAMZ plays online streaming services including Pandora®, Spotify®, iHeartRadio® and many others without the need for a smartphone.

Shipments begin March 2016. Click <https://goo.gl/XB7EBm> to watch trailer.

“Most music lovers, sportsperson, commuters and audiophiles just want to listen to their music without having to mess with their smartphone, apps, cables and Bluetooth pairing. We’ve created a solution that provides you complete freedom to instantly and easily listen to online streaming and HD quality music without a separate phone or music player.” **Douglas Kihm, CEO, Founder.**

STREAMZ VOXXI Voice-Control. VOXXI voice control offers simple and safe listening with sight and hands free voice commands while jogging, driving or just hanging out, without the need for a smartphone. Just “Say and Play” your stored HD music or online streaming music using VOXXI voice commands.

The Only Pair of Headphones You’ll Ever Need. STREAMZ is more than just headphones, it’s a complete WiFi HD music player that users can wirelessly listen to stored and online streaming music. Like a smartphone, STREAMZ will have exciting new software App updates. So unlike traditional headphones that become obsolesced over time, STREAMZ will keep their value for many years to come.

The World's First Streaming Music WiFi Headphones. STREAMZ can play online streaming music services such as Pandora®, Spotify®, iHeartradio® and others. Unlike Bluetooth headphones, STREAMZ directly streams online music from the web over WiFi without requiring a Bluetooth smartphone.

WiFi is Better Than Bluetooth. STREAMZ WiFi instantly connects without requiring Bluetooth pairing or using your limited smartphone battery. STREAMZ WiFi allows users to stream high quality online music with a range of 100 meters which is over three times greater than Bluetooth's range of 30 meters.

Unparalleled WiFi, HD DAC Quality Music Player. Unlike Bluetooth headphones, STREAMZ uses uncompressed WiFi and a 96kHz/24 bit HD DAC to play the absolute highest quality music available in the market today including FLAC, Apple AIFF, WAV and HD music from PONO® and other online HD music stores. STREAMZ also plays standard formats including MP3, iTunes AAC music and Podcasts.

Four Ways To Play. There are four ways to play music on STREAMZ including with its color display, via voice commands, with an Android® Wear® smartwatch or using it's iOS or Android® STREAMZ App. The STREAMZ App allows you to browse and play music on the headset or streamed from a smartphone.

Two Comfortable Styles. STREAMZ Smart Streaming Headphones will be available in both leather cushioned "STREAMZ PRO" Over-Ear and "STREAMZ GO" On-Ear styles. STREAMZ will initially be available in black and white colors. All models have an integrated 128X128 pixel color OLED display, two keypads, a microphone and an integrated rechargeable lithium polymer battery that runs up to 6 hours.

Unique "Auto-Sync" Automatic Music Transfer Feature. STREAMZ Auto-Synch makes managing and listening to music incredibly easy by automatically and wirelessly transferring music that you have saved on your smartphone, MAC, PC or Google® Drive cloud storage onto the STREAMZ onboard storage.

36GB Expandable Storage. Expand the internal 4GB with a SD Card up to 32GB for a total of 36GB.

Convertible Desktop HD Quality Stereo Music System. STREAMZ can be collapsed for compact transportation or to rest on a desktop. STREAMZ can be used as a complete home or office HD quality stereo system by attaching them to an amplified stereo speaker system or an Audio Video Receiver.

Pricing. Both the STREAMZ PRO and STREAMZ GO models will be retail priced at \$399 USD MSRP and will be available from retailers worldwide and from the STREAMZ online store.

About Streamz. Streamz Inc.'s mission is to dramatically simplify and enhance people's entertainment experience with smart streaming media products. Streamz Inc. is a spin-off of Mozaex®, which over the past 32 years has shipped hundreds of thousands of smart entertainment media products for world class companies including IMAX®, NEC®, Gateway® and hundreds of dealers in over 35 Countries.
